## About the Author:

The Author **Ivan Bayross** is a M. Tech in DBMS from **Manchester University UK**. He has spent more than 25 years in the software industry. He started as a programmer, moving up to CIO and is now Chairman and Technology lead, in a software development house in Mumbai, India.

He specializes in multi-tier, client/server, application development and has now begun to move this technology onto the Internet. This book is the result of his experiments with Active Server Pages and IIS. It really is an exciting and easy to absorb environment.

IVAN BAYROSS

Several, gif's, textures, horizontal rule, jpeg's and other stuff used for visually enhancing your HTML pages.

Complete project code for the projects included in the book.

## Who this book is written for:

This book covers ASP and is focussed on beginner to intermediate skilled programmers. It is especially designed for those who want to pick up the basics of ASP and build interactive Web sites fairly quickly. It has a series of ASP projects at the end of the book, which will help consolidate the ASP concepts in the book and firm up your skills.

If this book is coupled with the book entitled 'Web Enabled Commercial Application Development using HTML, DHTML, JavaScript, PERL CGI', an excellent set of reference material on Web based technology will be available to the reader. We hope that you have as much fun reading and understanding ASP as the author had when he wrote this book.
